

CATARACT LAKES

This is the rain forest of Colorado! To get there, take I70 west to Silverthorn. Turn left on Colorado 9 and drive towards Kremmling. Take the Green Mountain reservoir road that bears left and goes West around the edge of the reservoir. Turn left at the Cataract Creek campground sign and drive to the end of the road. Follow the path across the foot bridge and explore the area around Lower Cataract Lake for a variety of interesting mushrooms. Morels have been found in the area in June.
