The first edition of "*Stalking The Wild Mushroom*" was printed by the Colorado Mycological Society in 1980. The editor of that edition was Thomas M. Flynn. Our thanks to Tom for his excellent work. This edition has been revised and edited by Ellen Jacobson and Larry Renshaw. The mushroom drawings in this book were all done by Marilyn Shaw.

**There are bold mushroom hunters,  
and there are old mushroom hunters,  
but there are no, bold, old mushroom hunters!**

#### **THE MUSHROOM COLLECTORS' CODE**

- 1) To only gather mushrooms intended for food or study, not for commercial purposes.**
- 2) To preserve mushroom substrates whenever possible and to restore mushroom habitats after collecting.**
- 3) To support ecological programs designed to preserve the environment.**
- 4) To communicate mushroom conservation principles to other mushroom collectors and to the public.**
